GREG FORSTER

WEB DEVELOPER

PERSONAL PROFILE

Highly driven Web Developer with a desire for creating scalable solutions. Approaches both life and projects with an innovative mindset which has led to taking a non-traditional approach to start a career. Looking for growth within new technologies and atmospheres.

EDUCATION

Juno College of Technology - Web Development Immersive Program

Oct 2020 - Dec 2020

- Provided foundational knowledge in JavaScript, front end frameworks (React), and RESTful APIs
- Worked in both collaborative and independent projects to translate requirements into polished web applications

Juno College of Technology - Accelerated Web Development

Sep 2020

- A two-week, full-time course that provides the foundational knowledge in HTML and CSS

PROJECTS

Binge Fest [Live](#) [Github](#)

React | JavaScript | CSS | Firebase | Restful APIs - 3

- Smoothly connects 3 APIs and a corresponding realtime database in Firebase
- Integrated a map using the Google Maps API and functionally connected it to the Yelp API
- Used React and Firebase to dynamically load a selection based on the user's location and the shows stored within our database

Gilmore Girls - Frontend & Backend [Live](#) [Github](#)

React | React Router | Sass | MongoDB | NodeJS | Mongoose | Express

- Created a MongoDB database that is accessed through our API, using CRUD operations
- Developed a React application that communicates with our backend seamlessly
- Worked under a team environment that was fully autonomous, self-motivated, and delivered on deadlines set by the team
