Version Control

---

## PROJECTS

### Meal Combinator [Live](#) [Github](#)

HTML | CSS | Sass | Rest APIs | JavaScript | jQuery | Pair Programming

- Designed a responsive, intuitive user interface with attention to accessibility
- Utilized CSS, JavaScript, and jQuery together to create an engaging hover effect for the user
- Used modern techniques and conventions, such as namespacing, to organize our code
- Worked with a peer to deliver the product in a timely fashion within a remote environment

### Binge Fest [Live](#) [Github](#)

React | CSS | Firebase | Rest APIs | Group Programming

- Created an application that seamlessly connects 3 APIs and a corresponding Firebase
- Integrated a map using the google maps API and functionally connected it to the Yelp API
- Used React and Firebase to dynamically load a selection based on the user's location and the shows stored within our database

### Solar Stay [Live](#) [Github](#)

HTML | CSS | Sass | JavaScript | jQuery

- Used jQuery to dynamically display results to page
- Creatively crafted a range slider to take in user's input
- Used JavaScript to convert the user's input into an accurate result
- Provided the application with a friendly user interface

## ACHIEVEMENTS

Senior & Junior Letter Award, Junior Athlete of the Year Award, MVP 3x Ultimate Frisbee, MVP 2x Cross Country, MVP 1x Volleyball. I like solving Rubik's cubes in under 25 seconds!
